

Job Description

Post Title: Associate (Higher Apprentice) – External Audit

A position on our school & college leaver Audit programme is one of the earliest ways of joining PwC to start training for a professional qualification.

Our school & college leaver programme students get involved in many different tasks, supporting our audit teams on assignments working for FTSE 100 companies, large multinational organisations as well as small, fast-growing enterprises, charities and government bodies.

You will learn about all aspects of an audit and you will be given responsibility. For example:

- Reviewing assets
- Attending stocktakes
- Calculating depreciation
- Verifying expenditure and preparing accounts
- Collating company information
- Dealing with clients' creditors, suppliers and customers

Each audit will involve some office-based work, but the majority of your time will be spent out at clients' offices. This may involve frequent travel and sometimes staying away from home.

Professional Qualifications

You will be able to study towards the ACCA qualification to become a Chartered Certified Accountant.

Who is this vacancy for?

It doesn't matter who you are or what your schooling background is. As you'll no doubt have gathered by now, we believe diversity is our strength. However you must be academically strong - see below academic requirements.

Academic Requirements

A minimum of 112 UCAS points in one sitting. The subject of your A-levels are not important.

Do you need a Work Permit?

Due to immigration restrictions in Jersey and Guernsey the Channel Islands practice is unable to consider trainee candidates who require work permits. Work permits are currently only granted once candidates are fully professionally qualified.

Application Timetable

To avoid disappointment, apply as early as you can

Further details can be found on the PwC 'Student Careers' Website.
