Welcome to BRILLIANCE.

Jersey's award-winning jewellery and watch festival.

Jewellery and watches aren't just pretty objects we wear.

We give, create, treasure, celebrate milestones and moments and hand them down to future generations. As jewellery professionals we are privileged to be a part of those moments everyday.

In Jersey we have a full spectrum of jewellery brilliance. Businesses over 100 years old, trading through the family generations, others fresh off the peg exploring new and future opportunities. Some represent the most elegant international brands and others showcase local design flair and then there's everything in between. As an island we can offer the precision of expert goldsmithing and horology and add the spirit of Jersey into what is created.

Brilliance is back for 2022 to celebrate and showcase the expertise and talent we have on Jersey. Our participants are putting on events over the two week festival, welcoming you into their stores and workshops and helping you fall in love with jewellery that little bit more. From demonstrations to discussions, styling to collection launches, there will be something going on for you to immerse yourself in.

In addition to our retail partners, we also have a group of talented designer-makers collaborating through Genuine Jersey. You'll have the opportunity to see their work up close and meet the makers; take a look to see what each participant is offering and get involved.

We are proud to have gained recognition for last year's event at the UK Jewellery Awards and would like to thank the team at Rossborough and Visit Jersey for supporting the event and industry again for 2022.

Jersey Jewellery and Watch Festival, Brilliance wins coveted UK Jewellery Award.

The winners of the nationally recognised UK Jewellery Awards 2022 were revealed in a glittering ceremony in September at The Hilton London Metropole.

Marking its 30th anniversary this year, the UK Jewellery Awards, organised by leading jewellery and watch industry title Retail Jeweller, is this country's longest-running and most prestigious trade awards event, established in 1992 to recognise the achievements of those working in the jewellery and watch sectors.

Jersey Jewellery and Watch Festival, Brilliance won in the Customer Event of the Year category and was praised by the UK Jewellery Awards' expert judging panel. Judges were impressed by this ambitious project that had far-reaching and long-lasting results for all involved.

EJ Gallichan

Jersey's Oldest Jewellers

Very little has changed since the early days when Gallichan's opened as a watchmakers and Jewellers in 1845. The Premises may be larger with a wider range of stock, but the shop still retains all its old world charm and friendly, personal service.

The business was started by Jean Gallichan who was succeeded by his son Edward. As he had no heirs, the business was sold and the present company formed in 1856. The shop stayed open during the Occupation but as the Germans bought all the silverware, trade was mainly in second hand items such as spoons. As there was no heating or electricity, shop hours in winter were from 10 am to 3 pm.

Today, there is always a fabulous selection of jewellery including the latest design wedding bands, engagement and eternity rings and beautiful examples of pearl jewellery including freshwater cultured pearls from China and sea cultured pearls from Japan, Tahiti and South Sea Islands.

Watch brands include Maurice Lacroix and Jean Pierre, and Victorinox Swiss Army has been introduced into this already exclusive collection. Silver, gold and gold plate pocket watches are also available, new or antique.

About

Occupying a prominent position beside the Royal Square are the impressive premises of E.J. Gallichan, Jersey's oldest jewellers. The historic building is regarded as a notable landmark with its distinctive brass edged shop front and wall mounted clock. It has been the home of business for over 168 year

Bastian Inverun: "High-quality, one-of-a-kind designer jewellery from select materials. Our jewellery emphasises the wearer's personality and rebels against the arbitrary, short-lived whims of today's world. Colour, shape, structure and feel in harmonious symbiosis are what gives our handcrafted designs their unmistakable character". The Harbour Gallery in St Aubin is home to a great number of Genuine Jersey artisans including the following who are making jewellery which carries the distinctive logo on their produce.

Emily Claire Jewellery

Emily Claire Jewellery is lovingly handcrafted in Emily Copp's home studio. With a focus on sustainability and an environmentally conscious ethos, every timeless piece is handcrafted with love and respect to the materials and environment. Each piece is uniquely created from recycled silver which is an eco-friendly alternative to standard Sterling Silver, produced from 100% recycled metal from the giftware, jewellery, medical and electronic industries and complemented with ethically sourced gemstones.

Clogau – The Gold of Royalty

The rare Welsh gold that lies within every piece of jewellery is the same gold that

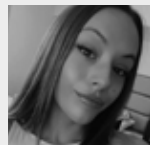

has been used in the wedding rings of the British Royal Family since 1923. The tradition started

with the wedding ring of Queen Elizabeth, the Queen Mother and the wedding rings of several senior Royal Family members including the Queen, Prince Charles, Princess Anne, and Prince William have also been crafted from Welsh gold. A representative from Clogau in Wales will be in store at STORY to share their knowledge and the fascinating history of the family behind this much loved jewellery brand.

Ten Jersey Jewellery Facts

- 1 In Jersey we have over 35 jewellery focused companies including award winning goldsmiths, silversmiths, horologists, jewellery designers, engravers, gemmologists, pearl stringers and retailers.
- 2 Jersey's oldest jeweller is EJ Gallichan in the Royal Square, founded in 1845 over 175 years ago. Hettich also has over 120 years of history.
- 3 The majority of Jersey's jewellers are independently owned family businesses.
- 4 The first person attributed to culturing pearls was William Saville-Kent, a former Jersey fisheries minister.
- 5 We may not have a diamond or gold mine in Jersey but many skilled professional jewellers have used their skills to hone our natural raw materials such as Ormer, Jersey Granite and beach seaglass.
- 6 The Mace is Jersey's own 'crown jewels', it was presented in 1663 by King Charles II to the Bailiff of Jersey in gratitude for his happy experiences in the Island.
- 7 The Bailiff's mace is not only one of the great ceremonial maces of the 17th century but also an outstanding piece of craftsmanship. It consists of 11 pieces made of silver gilt, is almost 4 feet and 10 inches long, weighs 237 ounces (14 lb, 13 oz) but bears no hallmarks.
- 8 The world's largest ever Celtic coin hoard was found in Jersey in 2012. It included eleven gold torques making it the largest ever collection of these high-status jewellery objects ever found in Europe.
- 9 In the mid 1880s, René Lalique was one of the most successful jewellers in the world. He later turned his hand to large-scale architectural design including the interior of St Matthews Church, Jersey.
- 10 Jersey Museum displays costume jewellery worn by Lillie Langtry in the role of Cleopatra around 1885.
